COUNTY HIGHWAY ENGINEER

JAMES D. HARMON, P.E.  
DIRECTOR OF OPERATIONS

March 7, 2018

Dear Northfield Board of Trustees:

On behalf of everyone at the Washtenaw County Road Commission (WCRC), I would like to thank you for your financial assistance towards improving local roads in 2017. In total, townships provided \$5.5 million in road and culvert funding during the last year.

Without your assistance, most local road improvements would not be possible. By law, WCRC can only provide 50% of the funding for improvements on the 1,060 miles of local roads in Washtenaw County. Your partnership is essential to the continued success of improving local roads and the quality of life in our communities, without it, these local road repairs would remain unfunded.

We are pleased to provide the townships with our 2018 Annual Local Road Program. We have increased our total amount of conventional matching funds to \$1.1 million, which is a \$400,000 increase from last year. This increase is a result of the \$600 million road funding package passed by the Michigan Legislature in 2016 and the unexpected \$175 million spending bill passed by the Michigan Legislature earlier this month.

To better assist townships in determining an appropriate level of funding for local road improvements in 2018, our annual meeting booklet includes...

- Cost summaries of 2017 expenditures and projects in your township
- Updates on 2017 WCRC activities and major projects in your township
- Details on the 2018 Local Road Program and matching fund allocations
- List of proposed local road projects
- Quote for 2018 proposed dust control program
- County-wide map of 2018 road and bridge improvement projects
- County-wide map of four-year road millage projects
- WCRC Capital Investments Plan (CIP) 2018-2022
- Additional information on township taxable value, local road needs and funding possibilities

Please note, we need your written commitment to this year's Local Road Program by **Friday, May 18** in order to obligate allocated matching funds. Your timely response and participation are essential to successfully accomplishing this year's Local Road Program.

If you have any immediate concerns related to the enclosed information, please feel free to contact me at (734) 327-6662 or Jim Harmon, WCRC Director of Operations, at (734) 327-6653.

Sincerely,

Roy D. Townsend, P.E.  
Managing Director

**WASHTENAW COUNTY ROAD COMMISSION**  
**2018 LOCAL MATCHING PROGRAM**

The Washtenaw County Road Commission is anticipating it will receive \$24,800,000 in Michigan Transportation Fund (MTF) revenues for 2017. Due to the road funding bills that were passed into law in November of 2015, the Road Commission is anticipating increased MTF revenues in 2018 for a total budgeted amount of \$25,000,000.

The Road Commission has recognized that local road funds are inadequate to maintain the 1,060 centerline miles of local roads in Washtenaw County; the Road Commission has historically transferred funds from the Primary Road Fund to the Local Road Fund, even though this transfer severely limits maintenance activity on our primary road system.

A summary of our 2018 budget as approved by the Board of Road Commissioners at its regular meeting on December 5, 2017 (RC17-425) is provided as follows.

2018 Road Commission Budget

Revenues

Michigan Transportation Fund	\$ 25,000,000
Federal/ State Funds	\$ 17,956,000
Trunkline Maintenance	\$ 2,370,000
Township Contributions	\$ 3,821,000
Other Contributions	\$ 7,132,000
Miscellaneous Income	\$ <u>2,544,000</u>
Total	\$ 58,823,000

Expenditures

Administration	\$ 1,168,000
Operations	\$ 9,206,000
Engineering	\$ 3,049,000
Non-Departmental	\$ 8,347,000
Debt Service	\$ 2,039,000
Road Improvement Program	\$ <u>36,897,000</u>
Total	\$ 60,706,000

Matching Funds

The Road Commission has allocated a total of \$1,100,000 for 2018 for the conventional Local Road Matching Program, which represents a \$400,000 increase over the 2017 program. This consists of a countywide allocation of \$930,769 for matching programs on local roads in all twenty townships based on the distribution formula used by the Michigan Department of Transportation to allocate local road funds to the 83 counties of Michigan. In addition to this, recognizing the fact that the urban local roads receive a higher allocation of Michigan Transportation Funds, \$169,231 is allocated based on the amount of urban local miles within eligible townships. Ann Arbor, Augusta, Dexter, Lima, Lodi, Northfield, Pittsfield, Salem, Saline, Scio, Superior, Sylvan, Webster, York and Ypsilanti Townships are within the urban area and are eligible for these additional matching funds.

The Road Commission has allocated \$200,000 for the 2018 Drainage Matching Program for local uncurbed, non-subdivision roads. The Road Commission has recognized the need for directing more resources towards improving the drainage along our local roads. The drainage matching program is in addition to the conventional local road matching program available to the Townships. Some of the key features of drainage matching program include:

- Funding distribution is based on the total uncurbed, non-subdivision local road centerline mileage for each township
- Eligible work activities are limited to uncurbed, non-subdivision local roads
- Eligible work activities include roadside berm removal, ditch establishment & restoration, small culvert installation, rehabilitation or replacement.

Replacement of local road culverts and bridges that require permits from the Michigan Department of Environmental Quality and/or the Washtenaw County Water Resources Commissioner's Office will be funded by the Road Commission at no greater than 50% of total cost. This funding source is separate from the conventional and other drainage matching funds identified herein and will be applied on a case-by-case basis in partnership with interested townships by formal, written agreement.

\*Totals do not equal sum of individual allocations due to rounding

The WCRC Matching Program is subject to the following conditions:

a) Township Assistance

In order to allow local road improvements to proceed in a timely manner, townships are asked to assist Road Commission personnel in acquiring necessary tree removal and

grading permits, holding public hearings and coordinating any necessary property owner contacts.

b) Project Overruns

Road Commission staff will provide an estimated cost for each individual project to be included within the agreement between the township and the Road Commission. If, prior to beginning an individual project, it is determined that the original cost estimate will not cover project costs, the Road Commission will notify the township to determine, if the township desires to proceed with the project with a reduced scope or an additional funding commitment. Budgets are closely monitored on each project and every effort is made to avoid overruns. Any unexpected project cost overrun shall be taken from any unexpended funds remaining in that township's total township agreement. If the overrun exceeds the total township agreement, the Road Commission may bill the township up to an additional 10 percent of the total agreement amount with the township. At the township's option, such overruns can be taken from the following years matching funds.

c) Billing Procedures

As has been the practice for the past several years, the first 40 percent of the total Matching Program for construction and heavy maintenance projects will be due in June or 30 days from receipt of the first invoice. A second 40 percent will be due in August or 30 days from receipt of the second invoice. A final billing will be due in December or 30 days from receipt of final invoice. Any credits due townships will be returned at the time of final billing or credited to the following year, as determined by the township. The above billing methods apply only to those projects considered to be construction and heavy maintenance and does not apply to dust control which will be billed at cost to the date at time of billing. Standard fringe and overhead rates will be applied as defined by PA 51 of 1951, as amended.

d) Primary Road Matching

Any township board may, at their option, request that a part or all of their allocated matching WCRC funds, along with an equal amount of township funds, be used on a Primary Road Project within their township boundaries.

e) Reallocation of Funds

Any township that has not notified the WCRC of their intent to utilize matching funds **on or before Friday, May 18, 2018** will forfeit the 2018 allocated matching money. The WCRC will determine the amount of unused matching funds and reallocate these funds to primary road maintenance.

f) Dust Control

Conventional matching funds can be used for dust control only for solid applications (spot or skip spraying is ineligible).

g) Local Matching Fund Carryover

If a township determines that they desire to carry over the funds allocated for a given year into the following year, the township must provide written notification to the Road Commission that they are requesting this carryover, and identify an eligible project for which the funds will be held. The Road Commission carry-over fund will be preserved for one year. Beyond this point the funds will be reallocated as stated in Paragraph e. The carryover option allows the township to accumulate the funds that are allocated with the previous year allocation; in other words, the carry over funds cannot exceed the previous year's allocation.

## NORTHFIELD TOWNSHIP

### PROPOSED 2018 LOCAL ROAD PROJECTS

- DIXBORO ROAD, FIVE MILE ROAD TO SIX MILE ROAD  
Work to include roadside berm removal, ditching, culvert replacement, forestry operations, shaping the existing surface, the application of 6" (C.I.P.) of 23a limestone (approximately 3,650 tons) with associated dust control and project restoration. This is a proposed township share project with Salem Township.  
Estimated project cost: \$ 114,300  
Estimated project cost to Northfield Township: \$ 57,150
  
- JOY ROAD, DIXBORO ROAD TO EARHART ROAD  
Work to include roadside berm removal, ditching, forestry operations, reshaping the existing surface, the placement of 4" (C.I.P.) of 23a limestone (approximately 2,850 tons) with associated dust control and project restoration. This is a proposed township share project with Ann Arbor Township.  
Estimated project cost \$ 127,600  
Estimated cost to Northfield Township \$ 63,800
  
- JOY ROAD, EARHART ROAD TO PONTIAC TRAIL  
Work to include roadside berm removal, ditching, forestry operations, reshaping the existing surface, the placement of 4" (C.I.P.) of 23a limestone (approximately 2,600 tons) with associated dust control and project restoration. This is a proposed township share project with Ann Arbor Township.  
Estimated project cost \$ 95,700  
Estimated cost to Northfield Township \$ 47,850
  
- JOY ROAD, PONTIAC TRAIL TO NOLLAR ROAD  
Work to include roadside berm removal, ditching, forestry operations, reshaping the existing surface, the placement of 8" (C.I.P.) of 23a limestone (approximately 5,250 tons) with associated dust control and project restoration. This is a proposed township share project with Ann Arbor Township.  
Estimated project cost \$ 170,100  
Estimated cost to Northfield Township \$ 85,050
  
- JOY ROAD, NOLLAR ROAD TO WHITMORE LAKE ROAD  
Work to include roadside berm removal, ditching, forestry operations, reshaping the existing surface, the placement of 8" (C.I.P.) of 23a limestone (approximately 5,000 tons) with associated dust control and project restoration. This is a proposed township share project with Ann Arbor Township.  
Estimated project cost \$ 138,500

- Estimated cost to Northfield Township \$ 69,250
- JOY ROAD, WHITMORE LAKE ROAD TO HELLNER ROAD  
 Work to include roadside berm removal, ditching, culvert replacement, reshaping the existing surface, the placement of 8" (C.I.P.) of 23a limestone (approximately 4,950 tons) with associated dust control and project restoration.  
 Estimated project cost \$ 110,900
  - JOY ROAD, HELLNER ROAD TO MAPLE ROAD  
 Work to include roadside berm removal, ditching, reshaping the existing surface, the placement of 8" (C.I.P.) of 23a limestone (approximately 2,550 tons) with associated dust control and project restoration.  
 Estimated project cost \$ 64,200
  - JENNINGS ROAD, US-23 RAMP TO END OF PAVEMENT  
 Work to include roadside berm removal, ditching, HMA base crushing, shaping and compacting of the existing roadway, the placement of a 4" HMA resurfacing, aggregate shoulders and project restoration.  
 Estimated project cost \$ 244,500
  - JENNINGS ROAD, END OF PAVEMENT TO KEARNEY ROAD  
 Work to include roadside berm removal, ditching, forestry operations, reshaping the existing surface, the placement of 8" (C.I.P.) of 23a limestone (approximately 6,100 tons) with associated dust control and project restoration.  
 Estimated project cost \$ 255,800
  - JENNINGS ROAD, KEARNEY ROAD TO WEBSTER TWP LINE  
 Work to include roadside berm removal, ditching, forestry operations, reshaping the existing surface, the placement of 8" (C.I.P.) of 23a limestone (approximately 1,600 tons) with associated dust control and project restoration.  
 Estimated project cost \$ 78,900
  - SIX MILE ROAD, EARHART ROAD TO RUSHTON ROAD  
 Work to include roadside berm removal, ditching, forestry operations, reshaping the existing surface, the placement of 6" (C.I.P.) of 23a limestone (approximately 3,650 tons) with associated dust control and project restoration.  
 Estimated project cost \$ 132,900
  - DIXBORO ROAD, 528 FT NORTH OF SIX MILE ROAD, 8583 TO 8652  
 Work to include roadside berm removal, ditching, culvert replacement, associated project restoration.  
 Estimated project cost \$ 25,000

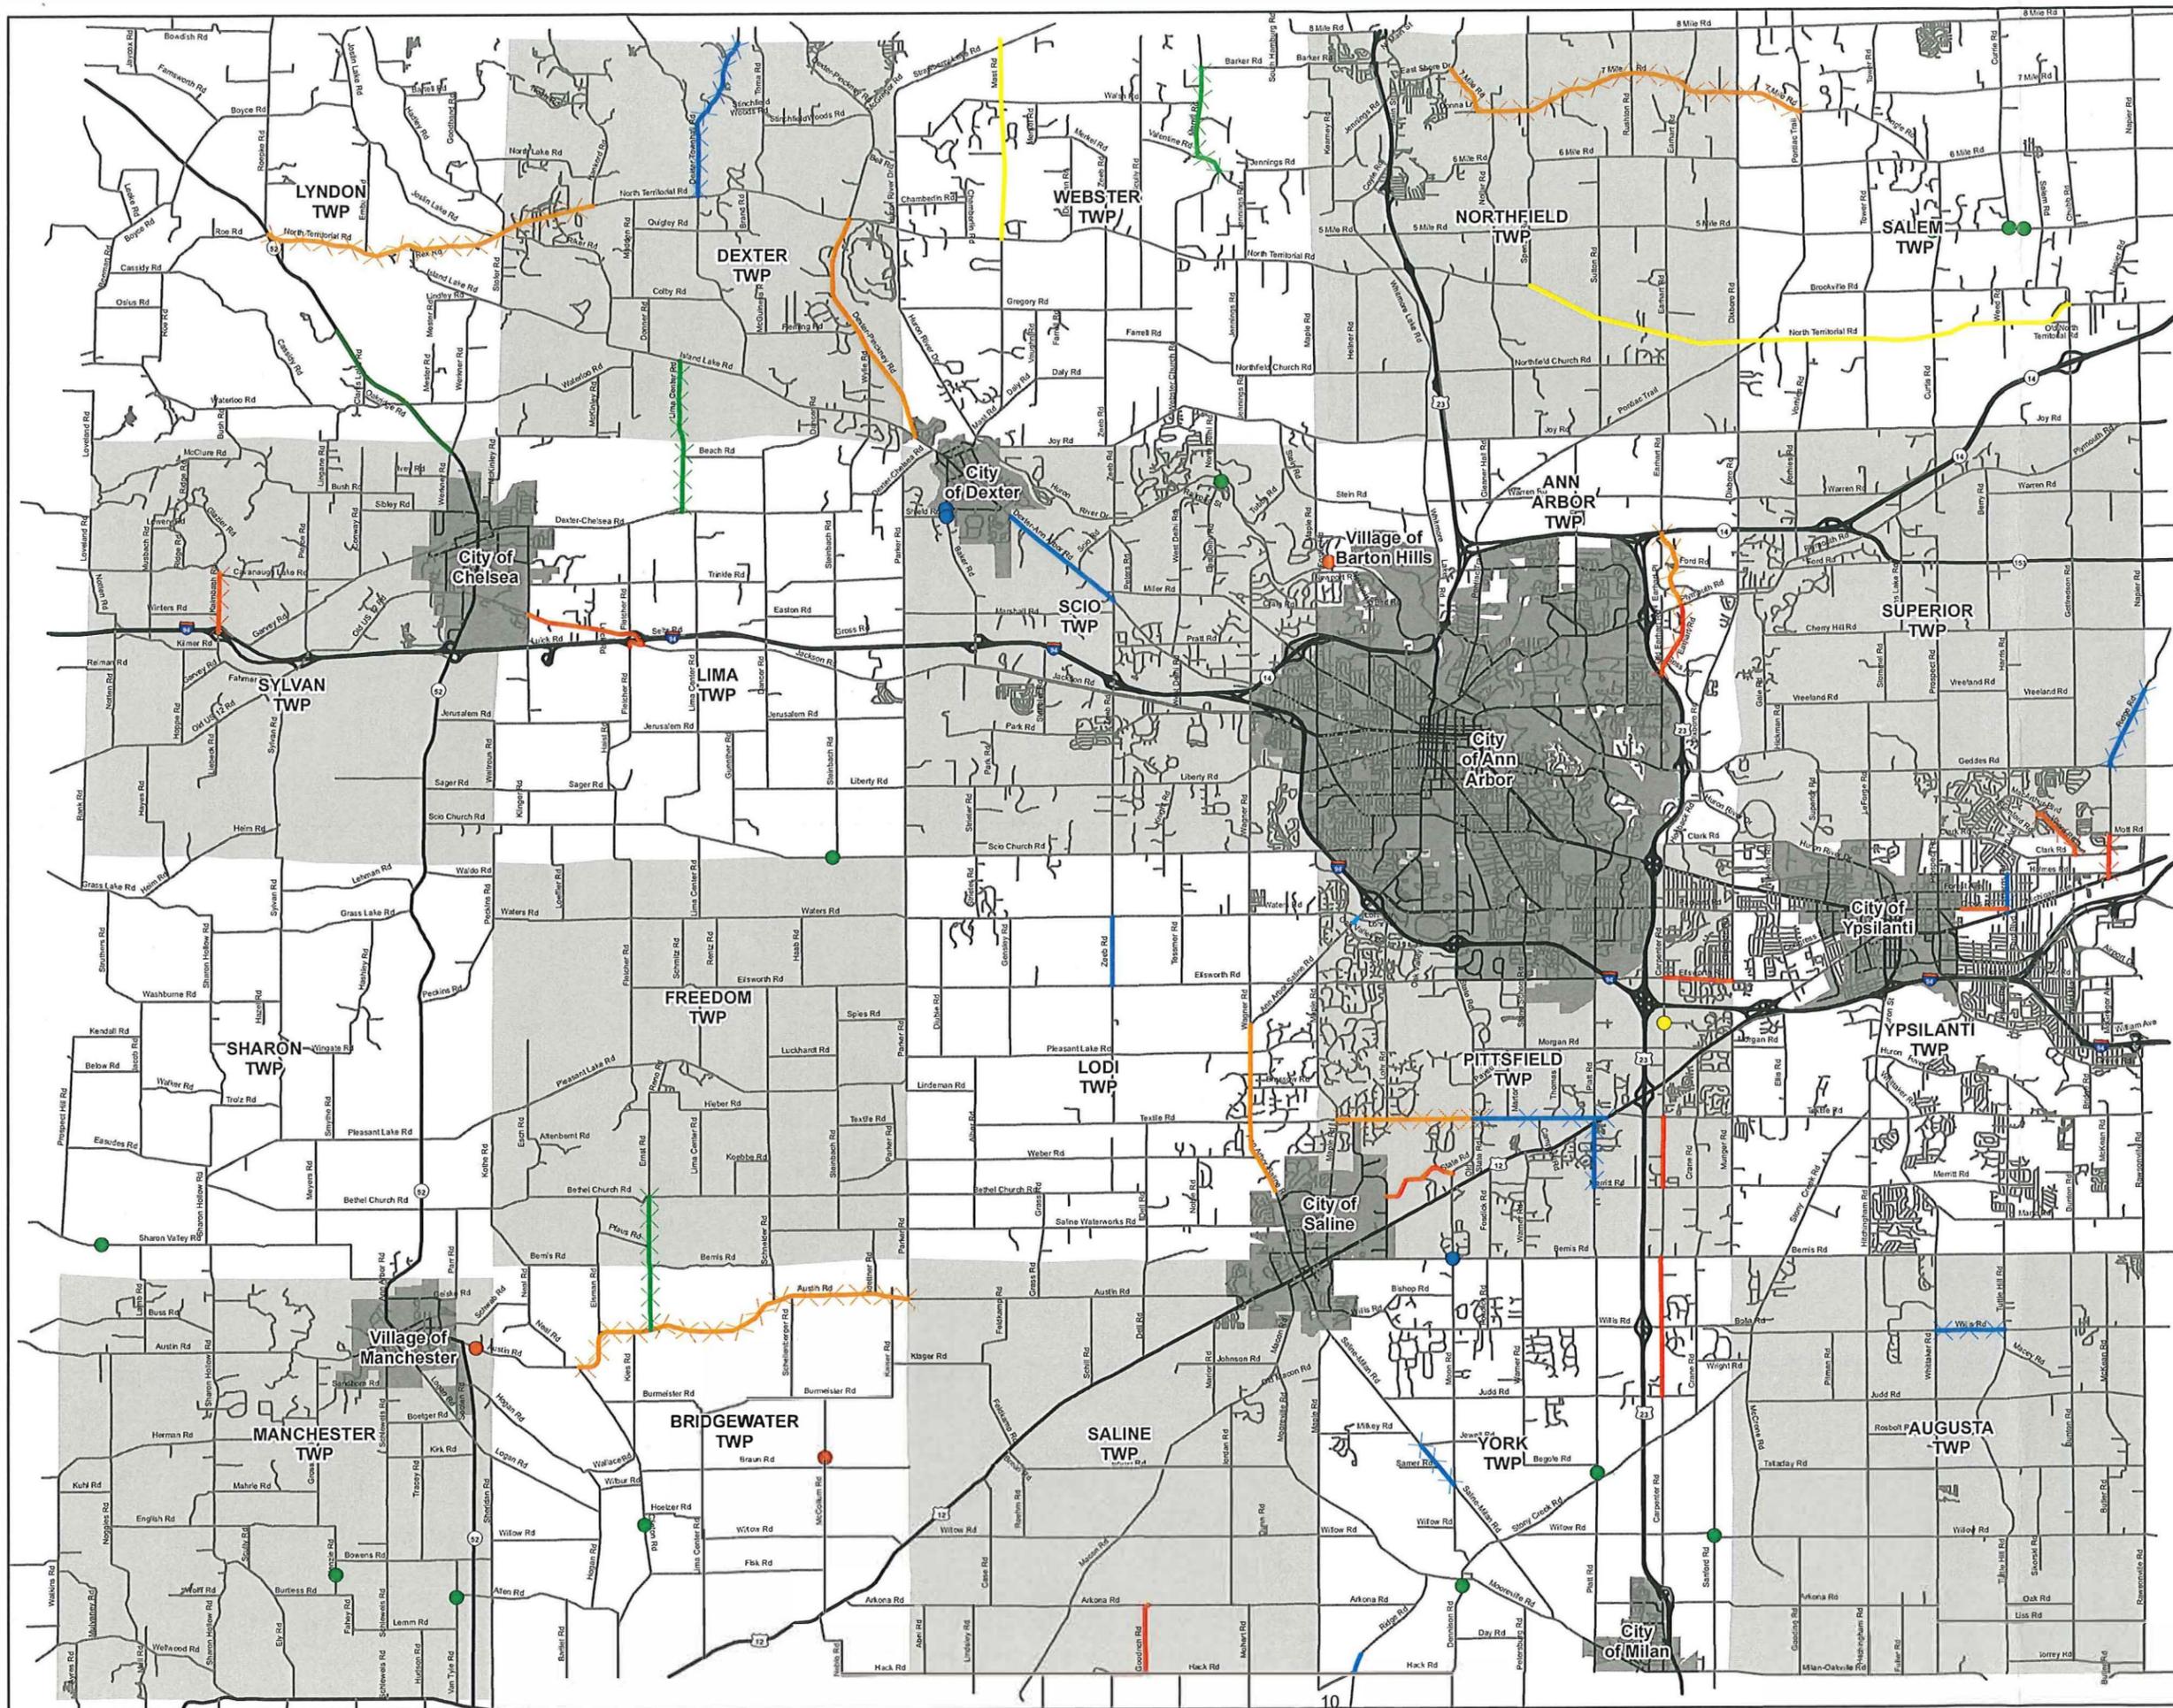

- SPENCER ROAD AT FIVE MILE ROAD  
 Work to include roadside berm removal, ditching, culvert replacement, associated project restoration.  
 Estimated project cost \$ 8,900
- NOLLAR ROAD, NORTH TERRITORIAL ROAD SOUTH 0.28 MILES  
 Work to include roadside berm removal, ditching, forestry operations, reshaping the existing surface, the placement of 6" (C.I.P.) of 23a limestone (approximately 1,100 tons) with associated dust control and project restoration.  
 Estimated project cost \$ 53,700
- NOLLAR ROAD, NORTHFIELD CHURCH ROAD NORTH 1 MILE  
 Work to include roadside berm removal, ditching, forestry operations, reshaping the existing surface, the placement of 6" (C.I.P.) of 23a limestone (approximately 3,850 tons) with associated dust control and project restoration.  
 Estimated project cost \$ 132,300
- NOLLAR ROAD, NORTHFIELD CHURCH ROAD TO JOY ROAD  
 Work to include roadside berm removal, ditching, forestry operations, reshaping the existing surface, the placement of 8" (C.I.P.) of 23a limestone (approximately 5,350 tons) with associated dust control and project restoration.  
 Estimated project cost \$ 154,400

## Federal Aid Eligible Paved Roads

### PASER RATINGS

PASER stands for Pavement Surface Evaluation and Rating. The PASER rating ranges from 1- failed conditions, to 10 - brand new pavement. A pavement will only be a 10 the first year of its life, the second year it will automatically become a 9. Any condition of 8 or greater is considered to be a good condition; 7, 6 or 5 are fair; 4 or lower is poor.

- PASER based on 2016 ratings and project improvements
- Private and Gravel roads not rated.

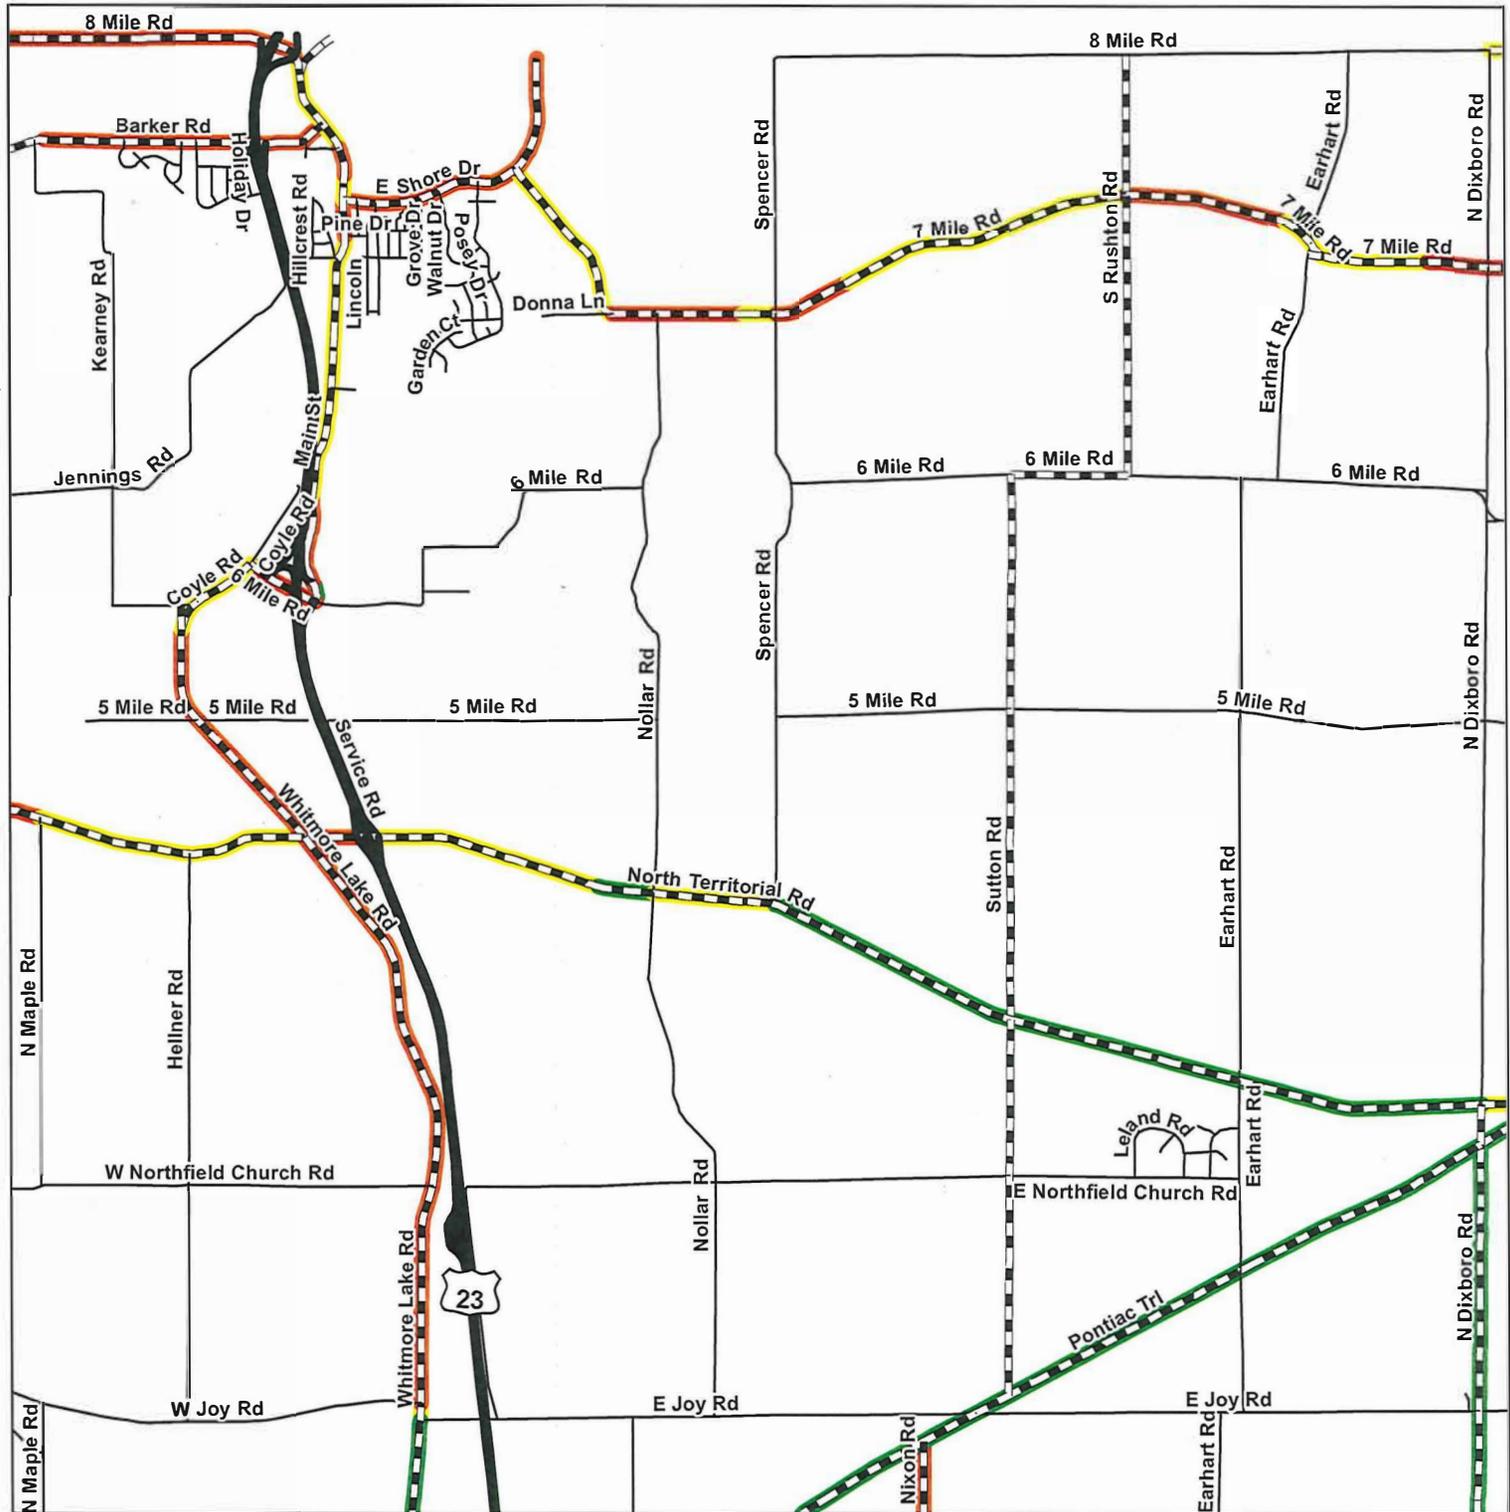

### THE RIGHT FIX AT THE RIGHT TIME

The WCRC determines the best fix to optimize service life for each of our projects. Good pavement management involves less expensive treatments earlier in the life of the pavement in order to take full advantage of infrastructural investments.

# Funding Local Road Improvements: Options for Townships

Townships are not legally required to contribute to the construction, reconstruction or maintenance of county roads. However, Act 51 does limit how much state funding the Road Commission can spend on local county road construction. Often WCRC is limited to no more than 50% of the project's total cost. The other 50% of a project's cost must come from a "local source" – which often takes the form of a township contribution.

While the recently approved countywide millage and new state revenue will help improve our primary road system, we still have 1,060 miles of local roads that need maintenance and repairs. Washtenaw County is not alone in its challenges securing needed funding. Looking beyond county lines, we see townships throughout Michigan turning to township millages or special assessment districts as a tool to generate the revenue needed to repair and maintain roadways.

In 2016, 75 townships throughout Michigan placed a road millage on the ballot. 93% of the millages passed; 70 passed, and only five failed. The average rate of passage was 67% of voters. We saw our county-wide millage pass by 71% during the November election. We have found that voters tend to support road taxes when there is a detailed plan and a commitment to raise and keep the funds local.

Described below are three options available to townships to raise revenue that can match WCRC's contributions on local road improvements:

## Act 51 Millage

Act 51 established the Michigan Transportation Fund (MTF) which distributes state-generated funds to county road agencies, cities/villages and the Michigan Department of Transportation. Act 51 also outlines two options for townships to raise revenue for the maintenance and improvement of local roads.

- Township boards can levy a property tax of no more than 3 mills in any year, without a vote of the people, for the maintenance or improvement of county roads within the township.
- With voter approval, township boards may levy a property tax of no more than 6 mills in any year for the maintenance or improvement of county roads within the township.

Read more in Act 51, section 247.670 "UNEXPENDED BALANCES OF TOWNSHIP FUNDS; APPROPRIATION FOR LOCAL ROAD MAINTENANCE OR IMPROVEMENT"

## Township-wide Millage

Section 6 of Article IX of the Constitution of Michigan of 1963 authorizes townships to levy millages with a majority vote of the people. Ypsilanti Charter Township used this option in 2016 to place Proposition C on the ballot to fund recreation, bike paths, sidewalks, roads, parks and general operating purposes. The measure passed with 58% of the vote.

## Special Assessment Districts: Township-wide or Neighborhood-to-Neighborhood

Public Act 188 of 1954 allows townships to pay for road improvements through a special assessment district (SAD). Act 188 outlines a specific process for levying a SAD. Scio Township's Board approved a township-wide SAD in 2013 which will raise \$500,000 annually for ten years and will fund improvements on all the gravel roads in the township. Numerous other townships in Michigan have taken this approach. Scio and Lodi Township have also approved neighborhood SAD projects, which are generally initiated by neighbors in a specific subdivision.

**TOWNSHIP CONTRIBUTION SUMMARY 2012 - 2017**
